

**MICRO**  
control technology

## AVS/IVS

### INTRODUCTION:

AC power line, which is connected to your valuable and sensitive all Home Appliance & Industrial equipments, may be have erratically by supplying abnormally voltage with transients, surges, spikes, sags, various noise and fluctuation. As a result your equipments may malfunction or even get damaged.

A preventive measure should be taken to save all valuable equipments. Use a reliable Voltage Stabilizer that provides with specified stable clean power all the time. Micro Control Technology Voltage Stabilizer is the suitable protective device for all equipments, If not only provides with stable and reliable power but also offers substantial benefits in performance, reliability and maintenance cost.

Taking all the above facts in consideration Micro Control Technology has designed unique Voltage Stabilizer that contains all the features practically required in our country.

### CAUTION:

High voltage, spikes and fluctuation are dangerous for sensitive electronics equipments like Computers, Textiles Machinery, Elevators & Escalators, Tele-communication Equipments, Pharmaceutical Equipments, Hospital & Medical equipments, Micro-processor based system etc. and low voltage, high voltage and fluctuation is very dangerous of equipments using HVAC System like Compressor, Refrigerator, Air-conditioner and Dehumidifier.

## Industrial Voltage Stabilizer

We assured to  
save & protect all  
house holds  
electronics goods.

Intelligent  
Controlling  
Multiple benefits  
Complete  
Satisfaction

## Application

- ✓ Cement Factory
- ✓ Label Machineries
- ✓ Textile Machineries
- ✓ Knitting Machineries
- ✓ Weaving Machineries
- ✓ Spinning Machineries
- ✓ Readymade Garments
- ✓ Elevators & Escalators
- ✓ Embroidery Machineries
- ✓ Dyeing & Finishing Machineries
- ✓ Tele Communication Equipments
- ✓ Ceramic Industries
- ✓ Computer Systems
- ✓ Defence Equipments
- ✓ Scientific Equipments
- ✓ Laboratory Equipments
- ✓ Pharmaceutical Equipments
- ✓ Injection Moulding Machines
- ✓ Color Laboratory Equipments
- ✓ Central Air Conditioning Plant
- ✓ Hospitals & Medical Equipments
- ✓ Others Industries
